

Reference letter – Prof Express – JSR Solutions

I have been working with JSR over the past year on multiple projects and I am very satisfied of our collaboration. Varun and his team have shown great skills in web development and SEO.

Projects for our website need a good conduct of php, sql, html, and flash technologies. Throughout the development, communication has been very good with frequent updates from Varun. I have also very much appreciated the fact that Varun can be reactive to urgent matter.

Overall, I will recommend JSR to any company looking for trustful web development and SEO management. I can be contacted directly should further information be required.

Cedric Derycke, co-founder and CEO of Prof Express
